PATENTS.
American and Foreign Office.

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.
No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *believing that inventors may be profited thereby,* he continues to forward them, free of expense, to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington, and delay, there, to avoid all personal trouble in obtaining their patents. They also have the advantage of *verbal advice,* pointing out the invention, and of consulting in respect to there, *in cases of doubt, and in advance of making an application,* thereby *avoiding unnecessary expense, and the procuring of useless patents.* The experience of *sixteen years' practice,* in the same line of business, and the *same work, duplicates, &c., on mechanical subjects in the Patent Office,* and patents of different countries collected at much expense, during that time, gives him advantages not to be easily met with elsewhere, enabling him to render assistance to inventors, which could not fail to attract the notice of the public. Patents and the public are informed of obscure individuals, and inventors who are known to the world, have obtained a celebrity from the assistance rendered by the subscriber, which could not be equalled by any other person, from the fact of his having effected notable cures in cases of the failure of others. Testimonials from eminent Surgeons, Drs. VALENTINE of New York City, and others, certify the value and efficacy of Dr. TOBEY'S Vegetable Pain Killer, which I consider peculiarly adapted to cure diseases of the throat and lungs.

In making the application for the services of the subscriber, the name of the resident agent should be given, whether the Caveat, Patent, or Extension is wanted, and whether the model, drawing, or specimen has been forwarded. The expense of a *sixteen year's practice,* in the same line of business, and the same work, decisions, &c., on mechanical subjects in the Patent Office, and patents of different countries collected at much expense during that time, gives him advantages not to be easily met with elsewhere, enabling him to render assistance to inventors, which could not fail to attract the notice of the public. Patents and the public are informed of obscure individuals, and inventors who are known to the world, have obtained a celebrity from the assistance rendered by the subscriber, which could not be equalled by any other person, from the fact of his having effected notable cures in cases of the failure of others. Testimonials from eminent Surgeons, Drs. VALENTINE of New York City, and others, certify the value and efficacy of Dr. TOBEY'S Vegetable Pain Killer, which I consider peculiarly adapted to cure diseases of the throat and lungs.

In making the application for the services of the subscriber, the name of the resident agent should be given, whether the Caveat, Patent, or Extension is wanted, and whether the model, drawing, or specimen has been forwarded. The expense of a Caveat is $20, and the fee in a Patent is $30. Circulars, containing full information as to the manner of obtaining Patents, may be had gratis, by calling at the office, or by addressing a letter (post paid) to the subscriber.

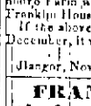
FARM FOR SALE.

THE subscriber offers for sale a great bargain, a farm containing thirty-two acres, with a good dwelling House, Barn, and all necessary out buildings, situated on the Levant Road, three miles from Kenduskeag Bridge. The land is good, being about to leave the State, offers the above farm to any one wishing to buy, at a great bargain. Information respecting the above Farm will be given by the subscriber at the Franklin House.

If the above farm is not sold before the first of December, it will be leased for two or three years.
G. WOODS.
Bangor, Nov. 16th, 1850.

FRANKFORT HOUSE.

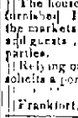


THE subscriber has recently taken the Hotel at Frankfort, known as the FRANKFORT HOUSE, and will open the house to the patronage of the public on Monday evening, Dec 2d.

The house has been recently repaired and refurnished. Its former well-established character for the best of tables, clean rooms and attendance will be sustained by the present proprietor, who will spare no pains to render the comfort of guests and parties.

Relying on the desire to please, the subscriber solicits a portion of the public patronage.
O. H. HINCKLEY.
Frankfort, Nov. 30, 1850.

Real Estate for Sale.



THE undersigned will sell the following described Real Estate, situated at South Levant, in Penobscot County, viz:

A single Saw Mill, Lath and Stave Mill, nearly new, and in first rate repair.

A small Farm of about 25 acres of first rate land, all under good improvement, upon which there is a good house and barn, and out-buildings, and well situate for a physician, merchant or mechanic.

A farm of about 50 acres of good land, some 130 rods from the mills at South Levant, with a small house on the same, and some improvements; together with a number of smaller lots in the village, well situated for building lots.

Also a good farm of about 50 acres near Wasson's Mill in Levant, with good buildings thereon, very pleasantly situated.

A tract of 672 acres of wild land in the town of Hermon, about nine miles from Bangor on the new County road recently located and now being opened, from Etna, through Carmel and Hermon, to Bangor. This is an excellent tract of land for farming.

Also, a new and convenient house and lot in Bangor, near the Levant road on Thomas Hill, and near the Holland place.

The above property will be sold at good bargains and on favorable terms to purchasers. A portion of the purchase money will be required on the delivery of the deeds, and the remainder will be put in liberal time with notes secured by mortgage on the premises.

The Wonder of the Age.
BEWARE OF IMPOSITION!
The Only Genuine and Original
IS THE
NORTH AMERICAN ELECTRIC
WASHING FLUID,
For Washing in either Hard or Soft Water.

THIS is the only genuine article of the kind in the world, and purchasers should be aware of anything now offered for washing clothes at a trifling expense, being sure with whatever else is sold, to have the genuine article. In fact it needs to be but known, to be the housekeeper's stone of universal economy, rendering magical, preparations at operation being of the most astonishing character. A common sized washing may be done with one gill of the Fluid, in less than two hours. It softens and removes the dirt, leaving the articles of the most brilliant whiteness, at being as harmless in its operations as pure water, and clothing will wear much longer than when rubbed to pieces by the common method of washing.

This Fluid is a powerful agent, to be used in all cases where soap is required, particularly for cleansing woollen goods, cleansing whiskers and hair, scouring floors; in short, it is beyond a precedent, as its use is universal in the washing world.

P. S.—All Colored Goods are rendered brighter by being washed in this Fluid. All Woollens are less liable to shrink, and thereby rendered much better than in the old way of washing.

None genuine unless the Labels contain their Signature.

The above article is warranted by the Manufacturers not to contain soda, lime, camphine, turpentine, or acid of any kind, but to be purely an alkaline preparation of the most powerful character, possessing more than double the washing power of any thing ever discovered, being perfectly harmless in its use, and pursessing the cleansing properties of the most valuable articles which find the market, and in many instances discount the people to that degree that they are unwilling to try a good article when it really is to be found. The proprietors only ask a fair trial of this article, and are perfectly willing to forfeit any amount for a single failure in any instance where it is used

The Patriots of Glass—No. 2.

In the published catalogue, only 619 articles are numbered, from some are excellent, and no more representative of the industry and ingenuity of the country, than they are of the progress in the arts. Why was not Lowell, Lawrence, Springfield, Worcester, Fitchburg, Northampton, and some forty other towns, distinguished for labor saving machinery and manufactures, have deposited here specimens of their Greek Slaves as well as the severe combinations of the mechanical and chemical people of the States, to be fair samples of their genius?

All the Cloths, Carpets, &c., admirable—but the Glass! Carbonized jars of Bohemian steel, from the Alleghanies, the unmatched brilliancy of Cheever & Phillips, Phillips & Sanborn, Chilicothe & Hewes, unrivalled in tone of color, in reducing, joining, and in the wholly fresh conceptions of flowers, fruits, and fictions our ability to rival, and even surpass them in the coarser and more showy articles of manufacture, but in the lofty duties of the artist, something to elicit admiration, and something to call forth the pride of the nation. The exception to this remark, are a few specimens of cut glass, from New York, which should not be, and are not, to be found in the Crystal Palace, so the line looks. Even though it had been used for a target, Stebbins & Kidder's bottles of S. P. Townsend's Sarsaparilla, with a label stating that the contents will cure whatever ails you, to the face, à la Connor, whom the old residents will remember, "*Now, gentlemen, that's certificate on the outside wrapper.*" God save the Queen, if this is the way the intelligence and constructiveness of our enterprising country is to be expressed before the eyes of all the powers in and out of Christendom, for it is quite certain there will be nothing left of us.—It was whispered that Sam Patch's Pawtucket was also in a right honorable position, somewhere in the apartment. I immediately went in search of it, fully determined to drink the whole at once, for the sake of putting the vile stuff out of sight, having no fear of the consequences, knowing, without faith in its infallibility, it would have no business under the roof, nor has the Compound Sarsaparilla.

A Doctor Lewis Feuchtwanger, of a rat exterminating notoriety, has despatched as large as life "141 *Madison Lane, New York, U. S. A.*," over what is denominated, "A rare and valuable collection of minerals, fresh water shells, fossils, &c., exclusively American productions." Shame on pulls of proprietor.

How very miserably these bits and fragments must appear to the learned geologists who are coursing through the avenues every hour of the day, and who neither recognize in this shabby collection either due to the mineralogy of the country, or a name especially well-known to science in America.

Maryland has a pretty case of her productions, embracing grains, ores, specimens of wood, and manufactures, but there should have been more. New York has a plenty of hats, equal to any that John Bull can produce. D. Simmons & Co., of Cohoes, New York, have a case of tools that might excite the envy of Sheffield cutlers. Brown & Wells of Philadelphia, have done themselves and Philadelphia credit. A patent collin from Brooklyn is rather a cooler. Visitors look at it as though they were in fear of being caught, unexpectedly. They don't understand the utility of this invention. There is no lack of ingenuity in endless profusion, of human extermination is prominent idea on the western side of the Atlantic, notwithstanding the annual demonstrations of the Peace Society. Goodyear's unique contrivances in India Rubber, and the minute uses to which his fertile powers have adapted it in domestic economy, give him a decided claim as a public benefactor. There is some better dentistry from America, than from other sources, but a woful neglect to show of what we have, and what we have accomplished, is manifest to all who have any tolerably correct historical acquaintance with our national history.

Boston, without any assistance, might fortunately enough to occasionally convince the hardiest unbelievers, that we have enough, and to spare. Some of Drury & Fairbank's locomotives; Chamberlain's admirable philosophical apparatus; Daniel Chamberlain's engines and lathes, massive as well as elegant; Wightman and Davis's highly finished electrical and galvanic machinery; and the printers, book-binders, boot-makers, tailors, dry-manufacturers, and, in short, hundreds of meritorious contributors might be brought into the field, who perhaps, unexpectedly to themselves, would ascertain they are more deserving of foreign commendation than they imagine. Of this, however, no more need be said.

If packages are on the way, their arrival will be hailed with vociferous expressions of delight. Heap boxes and wagon-loads of all sorts and dimensions are perpetually arriving, and the interior is undergoing constant transformations for the admission of new objects, or the erection of some device that is to increase the splendor of the whole. It is rather a source of mortification, too, to the few who know the inventive resources of our fatherland, to contemplate the empty space set apart for the model republic. Partitions, tents, alcoves, recesses, mounds for the advantageous display of fabrics of all conceivable forms and devices, together with suits of gorgeously gilted free-coed apartments, with beds fit for a goddess to repose upon—stained glass, fairy scenes, jetting fountains, of bronze and marble. Infinite in splendor, while music of organs, harps and pianos at distances too great to interfere with each other's harmony, tranquilize all the restless spirits. And with all this mass of solemn reality, thousands upon thousands of beautiful living forms glide quietly along the enchanted way—silently illustrating the poetry of motion.

It is actually bewildering to the senses to remain long in one position. If any one series of sections is more captivating than another, in

the department of artistic perfection, it is to be found in the manufacture of silver plate — Some of the table services are the most superb of manufactures—showing beyond question the extraordinary attainments of the silver-workers of England. It is quite impossible to describe with any prospect of being understood, the splendor of the various pieces composing a set. The objects to taste of the designers the inconceivable deftness and delicacy observable in the statuettes that profusely adorn the various dishes representing warriors heroes, martyrs emperors philosophers, beautiful imperial ladies and all the angels known to mythologists together with some that are yet to come, clinging to the borders bearing loaded salvers on their shining head kneeling under the pressure of Flora's bounties coming on spirited chargers whose bodies are some turrets coffee pots or cake baskets to say nothing of numberless other devices equally bold richly and intrinsically beautiful are among the convincing proofs of the high order of genius employed and the eminence to which an ornamental branch of industry has been carried. By the fostering of a wealthy aristocracy alone, could these transcendent fancy imposing gems of British art have been produced

John S. Sayward, Editor

THURSDAY, JUNE 12, 1851.

☞ We learn that it is the determination of the authorities of this city, earnestly, and decisively to put the new Liquor law into effect and to test its power to suppress the sale of intoxicating drinks in our city. This is right. It is the duty of the public authorities to see that the law is executed. It is a criminal time now and we cannot but regard it as a ridiculous sentiment that the determination of the authorities should be known. There are men in this city and vicinity who have stocks of liquor on hand and who care not what course to pursue. If the law is to be enforced they wish to get rid of their liquors as soon as they can, and rather than pay the cost of removing it, is to be paid to the law they would like to dispose of them for half the cost of removing it.

One liquor dealer in Boston, most of whose customers reside in Maine, stated a few days since that he should lose $3000 on the liquors which he would be retained to him from Maine in consequence of the passage of this law, and that he could not advise his customers here to continue to traffic so long with dangers and so certain to result in loss.

The people of Maine have suffered enormously from the use and use of intoxicating liquors and the friends of temperance and humanity have labored to beat back the evil of intemperance by the force of moral suasion and of law, and every motive which can address to most but against all these efforts the motive of interest has stood up with brazen face in open defiance and chuckled at the unmeaning pennies though dripping with the tears of wives and children. The present law has been framed with a due reference to the matter of interest and it reaches it by a short cut. It is meant to be strong. It is intended to be effective and radical in its operation. It does not and nicely balanced quest on but goes straight forward with a purpose to remove from Maine and that right speedily the liquor brought here for sale as a beverage. There is fail to be a necessity for suits, and the public authorities should seek promptly and faithfully executed.

If any friend of ours has liquors among his goods we would advise him forthwith to get rid of them for purposes of the arts or by selling them where the people deem them of value because they can turn them to some good and useful purpose.

Fourth of July.

Many of the young men of our city are desirous that the approaching anniversary of our national independence should be suitably celebrated in this city and it has been suggested that the Life Department, if disposed, could by the generous aid of our entire sustain a good celebration. Our own view of the matter is that the anniversary should every year be celebrated by the manly Fire Companies while other celebrations may be started. The city of Boston has always seemed to have the celebration, and in most cases a municipal celebration would be sufficient and could be conducted without great expense.

There are few places of public resort—very few look outs for Bangor where pleasure parties and family excursions could be had, and hence there seems to be great necessity for making some public demonstration to interest the masses on an occasion like the Fourth of July, which should become a matter of holiday.

But as the city authorities do not feel inclined to take upon themselves the responsibility of a public celebration, we think well of the suggestion that the Fire Department and the old unite in celebrating the day. By so doing, they will not only afford a pleasant recreation for themselves and the citizens at large but they will do much to promote a feeling of union and good fellowship among the town's men in the several companies. Many of the differences which disturb the various branches of the Department are more personal than any thing else and confined to a very small number of exciting and impulsive men. And even these differences are not half as great as they seem. By coming together in the arrangements of a public celebration, greater harmony will be produced, and all be benefited thereby.

A good celebration may be had without extravagance and without making it burdensome to any one or involving great risk on the part of the committee of arrangements. Let the celebration be of a popular cast to accommodate everybody without exhausting—a good sprinkling in of the day with salutes and the ringing of bells, a grand public procession and address and the usual public religious services a collation to the ticket holders and the music of the band during intervals in the afternoon and evening and a brilliant display of fire works for a close of the evening.

If the Fire Department take hold of this matter as they probably will, we would suggest to our citizens the propriety of making them a handsome contribution to enable them to defray the necessary public expenses of the celebration.

California Flower Seeds.

We return our thanks to C. M. Blake Esq. one of our intelligent and able correspondents in California for a box of California Flower seeds brought by him from that flowery region. The box contains twenty five different sorts and the flowers are said to be very beautiful and bright colored. We shall endeavor to bring out these flowers in our gardens, and if they prove hardy, to spread them among our friends who are fond of these beautiful things. This is a contribution to us of great value and interest far beyond its commercial value, and even that is not small, for similar packages sold for five dollars in San Francisco. Our friend Blake will add us under new and great obligations in so kindly remembering us in a department of so much interest to us.

☞ Mr. Webster declines the invitation to be at Newburyport on the 4th of July. This will be regretted by very many who have anticipated the pleasure of hearing him on that occasion. We learn from various parts of the country there will be a great gathering of the sons of Newburyport on the 4th.

There are representatives from that and out town nearly if not quite every State in the Union. It will indeed be a joyful time for the old to meet the gray haired fathers and mothers and brothers and sisters and intermingle kindly greetings and the old familiar memories of the past. All the professions and the various pursuits of life will be represented from Maine and no from several other States.

☞ The good excitement in the Northern part of Somerset county, near the line dividing Maine from Canada has very much increased. A number of regularly authorized California miners have departed for the Northern gold region with all their mining implements.—

The new bowl has struck.

At the last accounts there were a thousand men prospecting and digging in the region where the gold has been discovered and the precursors in the country quantities were all determined to get a pocket full of rocks.

Virginia.

At a general meeting of the Whigs of Norfolk several days since it was resolved that they have full confidence in Mr. Fillmore and cordially approve of his administration which has been conducted with that prudence and wisdom so well calculated to promote the great interests of the country, and hanging on the threatening elements of sectional strife.

The capsized life boat unfortunately escaped, but I found he ought to be made to serve ten years in the State Prison or a spot of just such things as he threw at the omnibus.

The ship Baltic sailed for Liverpool today with 1000 people, the Baltic, females, and 90 000 in specie.

Steamship Georgia will leave for New Orleans on the 17th, and the Union on the 19th inst.

He sees Greeley in his letters from the World a Turk in which the Commissioners have appointed a juror, does not speak very flatteringly of some English things. He attended divine service at Westminster Abbey, the architecture of which pleased him so little that he says it reminded him of what poets call the confections of the fairy without her inspiration. The service, he says, was read in a drawling musical monotone, which termed like—The whole, according to Hall had an eleventh century air about it. It is proper to say in connection perhaps, that Mr. Greeley is a Universalist.

Simson & Co have disposed of a moiety of their interest in the New York and New Orleans Express to Messrs Adams & Co and it will hereafter be known as Adams & Co's New York and New Orleans Express.

Barnum's Great Caravan and Walking Museum of Natural History, containing the seven infant elephants, under the big tent in Astor Place, is to leave here on Monday next.

At the "Rantoul Festival" Chelsea which was attended by George Hood Mayor of Lynn, Elizur Wright, editor of the Commonwealth newspaper Mr. Sewall, late free soil abolition candidate for Congress, in District No 2 and others of the same ilk, the following words were used in one of the speeches:—

"If a slave hunter came to my house I would kill him, take the Constitution for his winding sheet, and bury him in hell."—Boston Post.

He is a foolish husbandman who neglects to sow his seed—and he is an unwise man who neglects to inform the public of his business and his whereabouts. Those who don't understand it may have strength of mind but little distinctness of vision—they do not think either clearly or logically. Such persons may reason acutely, but are very unsound philosophers.

New York Correspondence.

To the Editor of the Whig and Courier

New York, June 7

Albany day to settle the dust.

We were somewhat disappointed here in Mr Webster did not make a speech in this city however I do middle enough in other parts of the State to answer until the 4th days are over—His recent talks to the people are to be published in pamphlet form.

The Willis and Webb affair, which looked rather cloudy for awhile upon the Editor of the Home Journal has taken a very different complexion since the application of Mrs Goddington (late Miss Inman) for an injunction against Col. Webb, whom she charges with retaining and making a very base and malignant use of her children's letters to Willis, written while she was yet a school girl.

The steamship North American—taken from the Chagres route—will take the departure for Galway, Ireland, on the Anniversary of the Battle of Bunker Hill the 17th inst. In some respects, this is an expensive trial trip to a certain extent, but show short a time the voyage between New York and the nearest point on the British coast may be made. She will carry I think a large number of passengers. It will be home what out of the beaten track and will give the travelling community opportunity to see some of the most scenery architecture of art and mechanical skill. For the enthusiast are there are the cathedrals of the Druids to the literary and scientific there are the numerous libraries and museums architectural objects of interest and paintings of Dublin to the military man the walls and ramparts of the Stuart wars, still to be seen in the ancient town of Athlone to the artist and lovers of the romantic nature the beautiful lakes of Killarney, to the engineer the Atmospheric Railroad from Kingston to Dalkey will afford pleasure and to the statesman of political economy, the condition of every part of Ireland is full of interest.

The proposed enlargement of the Battery, the great summer promenade of the New Yorkers has been agreed to by the Aldermen, but may be vetoed by the Mayor as it could only be done by filling upon portion of the river at a point where it is said it would interfere injuriously with the current.

Another improvement in contemplation is the purchase of about 80 acres of land in the suburbs of the city known as Goth and 90th streets for a public park.

Jenny Lind gave her first New York concert, under Barnum's auspices, last evening at Castle Garden. During the day, there was a great excitement in respect of tickets and many a ragged fellow had come to the city for purpose to hear Jenny Lind could not obtain admission at any price. The immense area was crowded and probably not less than 6000 persons were present.

She did not sing at the concert which is to be given for the benefit of her orchestra, which you know numbers 80 of our best native and imported musicians.

Several more concerts in Philadelphia and Boston, will complete her engagement with Mr Barnum, who is about to take those little Italian prodigies, the Bottesini, on a professional tour of England.

I am told that Miss Lind has not been entirely satisfied with the proportion of receipts to her concerts and that she says that hereafter she will sing on her own account and at such terms as will enable every purse, who has fifty cents in his purse, to hear her.

The large number of Californians landed from the Georgia must have scattered for the most part without any tarry here. A large general tax too many of the unfortunate have been plucked of a large share of their hard earned gains.

A disgust & outrage was committed yesterday on Broadway. Some rascal not at arrest ed threw at an omnibus, a rotten egg which went through the open window and broke on the knee cap of a lady to the utter ruin of her fresh and new dress. The stockings was detestable, but two or three gallant and indignant male passengers pulled their pocket handkerchiefs from their pockets and wiped off the egg as well as they could from the person of the mortified lady, who looked ready to die with shame and vexation. The rascal did unfortunately escape, but I found he ought to be made to serve ten years in the State Prison or a spot of just such things as he threw at the omnibus.

Meeting of the New York Legislature—Gov. Hunt's Message.

Albany June 10

Both Houses met at ten o'clock and after being duly organized Gov Hunt sent in his message. It occupies about 2 columns in length matter and it is nearly all devoted to documentary which have been the cause of the special election.

He speaks of the sudden adjournment of the legislature, and thinks that at the people have plainly shown by the course pursued in the special election, that they are in favor of the canal enlargement. He also alludes to the completion of the Erie Railroad and the vast benefit likely to accrue to the State. He also speaks of the various objections to the passage of the enlargement bill, and he does not think there can be any constitutional reasons against its becoming a law.

Hiram Mr Varnum of New York, has been chosen speaker of the House by resolution. The committees are the same as last session.—[Tel to Boston Jour

WHITE MOUNTAIN
STATION HOUSE,
Peabody River, Gorham, N. H.

THIS House is situated on the line of the Atlantic and St. Lawrence Railroad, in the valley of the Androscoggin River at the junction of the Peabody River with the Androscoggin, and at the immediate base of the White Mountain Range, on the northern side.
The confluence of these valleys at this point affords the most beautiful and imposing views of the Mountains in various directions, and in more expeditious and easy access to the summit of Mt Washington than any other point.
The Proprietor of the House will make arrangements with the Telegraph Companies and with Congdon's Express, by which despatches and other communications can be transmitted to and from all parts of the country for the convenience of visitors.
The House is large and commodious, constructed with great regard to architectural elegance, and with all the conveniences of a first class Hotel—It has *one hundred and eight sleeping rooms*, and is newly and thoroughly furnished throughout.
Families can be accommodated with suites of rooms.
The Proprietors having leased the House for a term of years, will do all in their power to promote the comfort and pleasure of their guests, and promise a well supplied table, and clean and well ventilated rooms at moderate charges. In connexion with the House is a large LIVERY STABLE, where good Horses and Carriages,—and Saddle Horses will be furnished at all times.
Also good Bathing rooms for the convenience of visitors.

NEW ARRIVALS
RICH DRESS GOODS!
No. 40, Main Street.
WE now offer to our customers and the public, our SECOND GREAT STOCK of the season, received direct from New York, all of which will be sold at such prices as will satisfy purchasers OUR LATEST ESTABLISHMENT ranks as the *very first* in the STATE, for Good Bargains and *favorable dealing.*
Large quantities of our Goods are received direct from IMPORTERS and AGENTS, enabling us to save our customers a handsome profit they would otherwise have to pay on many kinds of Goods; and to offer at all times as cheap as possible and consistent for the *Public* to make our Store their GREAT RESORT for all their Dry Goods purchases.
In addition to our stock of *Rich Dress Goods*, we offer to FAMILIES supplying their HOUSE-KEEPING ARTICLES, a much greater variety of Table Linens, Bedding, &c., than is usually found in any one establishment.
Our stock of *SHAWLS, VISITES and BONNETS* is very large.
Our Carpet Rooms
never presented greater attractions for variety of quality and novelty of style, than at the present season.
In addition to our large and attractive Retail department, we would call the attention of MERCHANTS OUT OF TOWN to our
WHOLESALE ROOMS.
They contain all the *Staple* and desirable styles of DOMESTIC GOODS of the season.
Without particularizing the names and prices, we will please ourselves to offer to the *Trade* our Goods, at *the lowest Boston prices*, thereby saving the necessity of time and expense incurred in visiting other markets.

Cape Cottage Re-opened.

ON the first day of May, this long celebrated Summer Resort, which with the Shelter, Shores, Bowling Alleys, &c., has been entirely rebuilt in a new style of architecture, and refitted in the scenery of the neighborhood, will be opened for summer boarders and transient company, on said days (Sabbath excepted, when no transient visitors will be received) for the accommodation of the subscriber being to establish the House a high character, so as to engage the hearty co-operation of all who may need a retreat, refreshment, sea bathing, pleasant drives and walks, boating, fishing, bowling, &c. &c. Being built on the outer shore of Cape Elizabeth, all open to the sea, with vessels passing and repassing all hours, and nearly daily from Portland, Boston and Maine, and Eastern ports, with the shipping of the White Hills of New Hampshire in full view on one side with the United States Fort, with its batteries, harbor and shipping of Portland city and the broad ocean on the other, Cape Cottage has long been regarded as one of the most beautiful and picturesque watering places in the world. By the kind notice of Mr. George Cobbe, a book of travels in the United States, who spent a summer at this place, it has acquired a high reputation at once.
The intention is all that can be required for resort to the health of persons for pleasure; and the subscriber will not fail in his endeavors to make it in all respects desirable for the public.
Being only three miles from Portland, conveyance can be had at any time.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

Great Dyspepsia Cure!

THE TRUE

DIGESTIVE FLUID,

OR

Gastric Juice,

PREPARED from RENNET, or the fourth STOMACH OF THE OX, after directions of Baron Liebig, the great Physiological Chemist by J. S. HOUGHTON, M. D. Philadelphia Pa.

This is a Great Natural Remedy for *Indigestion* and *Dyspepsia*, curing after Nature's own Method, by Nature's own Agent, the Gastric Juice. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food*, the *Purifying, Preserving* and *Stimulating Agent* of the Stomach and Intestines. It is collected from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a *complete* and *perfect substitute* for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Dealine, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree *curious* and *remarkable*.

BARON LIEBIG, in his celebrated work on Animal Chemistry, says "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucous membrane of the stomach of the Ox, in which various articles of food as meat and eggs will be *softened changed and digested, just in the manner as they would be in the human stomach.*"

Half a teaspoonful of pure Pepsin infused in water, will digest in digestive *Five Pounds of Beef in about two hours out of the stomach.*

DR. HOUGHTON'S PEPSIN is sold by nearly all the Druggists, fine drug and Popular Medicine Dealers throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

PRIVATE CIRCULARS for the use of Physicians may be obtained of Dr. Houghton, or his Agents, describing the whole process of preparation, and giving the scientific reasons which the claims of this new remedy are based. As it is *not a secret remedy*, no objection can be raised against its use by Physicians in respectable standing and regular practice.

Price, in Fluid form ONE DOLLAR per bottle.

PEPSIN IN POWDER,

Sent by Mail, *free of postage*.

For convenience of sending to all parts of the country, the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder, with direct ons to be dissolved in water by the patient. These Powders contain just the same matter as the bottles, and will be sent by mail *free of charges*, for ONE DOLLAR, (cash paid.) by Dr. J. S. HOUGHTON, Exchange Place, Philadelphia, Pa.

☞ *OBSERVE THIS*—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia Pa.

Sold by all Druggists and Dealers in Medicines.

LADD & INGRAHAM, Agents, for Bangor; Belfast, W. O. Penn, Ellsworth, B. Sourse, Hinkley, Portland, G. L. Bradley & Co.; Oldtown, R. T. Kennell; Houlton, P. O. Flaherty; and by Druggists generally.

ELEGANT AND INVALUABLE

Articles for the Toilet.

Bogle's Hyperion Fluid.

For Restoring, Preserving, and Embellishing the HAIR.

The following certificate from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb 15 1847.

Mr. Jno Bogle,—Sir: The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, clears the skin of all impurities, without producing any nauseous or deleterious effects, which are so frequently the result of many well known celebrated compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in any position required, and the most refractory of the hair, less to a dressing, will remain. For children, it is the best article for a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This is a special article—entirely different, and more agreeable to anything yet invented for shaving. This luxury is derived from the *Amole*, a unique plant of California, an article used by the inhabitants of that country for washing and thus, the use of it is a powerful, delightful to the skin, is evident. Its vegetable and astringent properties have the present and most universal effect on the skin,—tones and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is decidedly necessary to be mixed with this incomparable soap. Its close up in the smooth style, calculated either for dry or wet shaving, or the toilet of the most fastidious connoisseur.

Bogle's Hebeantana,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, clear and beautiful. It is a delightful and delicious preparation, protecting the skin from the hot rays of the sun, and the chapping effects of winter, and is the most fragrant and delicious article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are warranted superior to anything yet invented, but if not found to prove as described, the money, in all cases, will be refunded by my Agents.

THE GENUINE BALM OF COLUMBIA.

IS a rich, luxuriant, hand of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this article. Age, state, or condition appears to be no obstacle whatever. It also causes the hair to flow with such delicacy, and takes on a gloss as the Aquiline (or eagle) have had their hair restored to its natural color by this long untried remedy. In all cases of fever it will be found the most pleasant exhibition that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to restore a rich glossy appearance, and as a perfume for the toilet it is unequaled. Rhinelander Dorr's Co. stands above other miscalled hair restoratives, and is more effectual.

☞ Caution—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

TO OWNERS OF AND DEALERS IN HORSES.

Carlton's Founder Ointment,

For the cure of Poultice, Split Hoof, Hoof Scald, Hoof Heated, and contracted, and Feverish Feet, Wounds or Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on horses.

CARLTON'S RING-BONE CURE,

For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

☞ This Ring Bone Cure or the Founder Ointment are prepared from the recipe of a very celebrated English Farrier, and will cure in nine cases out of one hundred any of the above complaints. They have been used by farmers, livery men, stage proprietors, and others, with the most marked and decided success.

FOR FEMALE AND MALE.

DR. LARZETTI'S JUNO FORTIAS, or Preventive Elixir, prescribed as an effectual preservative against Debility and all irregularities of nature. It is all that it professes to be, viz: Nature's Great Restorative and remedy for those in the married state without offspring. It is a certain cure for Suppressed Menses, Green Sickness, Leucorrhœa or Whites, Also a vigorating medicine in the impotency of the Genital Organs. No matter of how long standing, Also, a certain remedy for Incipient Consumption, Indigestion, Loss of Muscular Energy, Physical Incapacity, Nervous Weakness, Debility, &c. It is warranted to please the user in any of the above complaints and is of priceless value to those without offspring.

☞ Caution—This celebrated medicine cannot be got genuine except from the sole agents, Dutton & Co. 78 Chatham street, New York, to whom (*the only American agents*) is on the wrapper of each bottle.

DEAFNESS.

The Dr. LARZETTI'S ACOUSTIC OIL, for the cure of deafness, &c., all those disagreeable noises, like the buzzing of insects, falling of water, whizzing (or ringing), which are symptoms of approaching deafness. After one drop has been used in the ears for twenty seconds, or more, the patient will find the sounds, above, gone; after using one or two bottles the noises will be entirely removed, and which were attended with symptoms of deafness, that no person could hear the ordinary tone of human voice, or even the loudest sounds, will be able to hear distinctly. It strengthens the ear drum, and will have effect in all cases of total deafness. Complaints—Deafness in the Ear, Noises in the Head, Difficulty of Breathing—*Purulent Expectoration—Hectic Fever—Night Sweats*, and even the decay of the Vital Principle. Persons having such complaints have been cured after all hopes of recovery were entirely given up by their friends, and even the physicians, in a few weeks longer. This Medicine has cured cases in which we had supposed Coffins in a dying state, but by the use of this remedy, they are now living, and enjoy good health.

This Balsam is *purely vegetable*, and is perfectly safe. It is pleasant to take, and never does injury in any shape or dose to persons in any circumstances. It effects its wonderful and almost miraculous Cures by Purifying, *Strengthening*, and Invigorating the whole system, by restoring the circulation, and producing a healthy action—thus *allaying* Cough—*soothing the Nerves*—and *relieving and fortifying* Expectoration. It Cures the following diseases, viz:—

Consumption,

COUGHS and *Colds, Bronchitis, Asthma, Spitting of Blood, Inflammation of the Lungs, Pains in the Breast, Side, and Chest, Nervousness, Night Sweats, Palpitation of the Heart*, and all FEMALE WEAKNESSES and *Complaints* arising therefrom, Cholera Infantum, &c.

☞ For Proof and particulars of Cures, see our Pamphlets and Handbills—all our Agents have them to give away.

BRANT'S INDIAN PULMONARY BALSAM,

The Great COUGH REMEDY.

After years of experience, and from less than a Hundred Thousand Cases of Consumptive Complaints, have proved to the undersigned, beyond a doubt, that no one has become acquainted with it a *wonderful remedy*, that is greatly superior, because it is *soothing* and healing, and *a certain cure* for Consumption of the Lungs, than any other Remedy now known. However, this article is sold by some that Consumption can not be cured. So that the opinion of the many or the few, are not to be regarded, as such is their own *egotism*, and *no matter* as a fact, which can be proved in thousands of cases, that this medicine has cured *Coughs and Colds* which, *before* the cures were effected, were called Consumption, and which were as much in the way of the doctor's skill as any case of Consumption. In the last ten years, in all cases of Consumption, (generally and extensively so called) that have been given up by physicians, and left to die, and pronounced incurable, this Balsam has been the means of saving hundreds of persons who would have died without it, of fatal Consumption. In the last ten years hundreds of persons who were called by physicians, Consumptives, have been cured of Coughs, Colds, Pains in the Breast, Difficulty of Breathing—*Purulent Expectoration—Hectic Fevers—Night Sweats*, and even the decay of the Vital Principle. Persons having such complaints have been cured after all hopes of recovery were entirely given up by their friends, and even the physicians, in a few weeks longer. This Medicine has cured cases in which we had supposed Coffins in a dying state, but by the use of this remedy, they are now living, and enjoy good health.

SANDS' SARSAPARILLA,

IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of SCROFULA; MERCURIAL DISEASES; RHEUMATISM, CUTANEOUS ERUPTIONS, ETC.

BORN ULCERS, LIVER COMPLAINT, DYSPEPSIA, BRONCHITIS, SALT RHEUM, CONSUMPTION, ULCERS, FEMALE COMPLAINTS, ERYSIPELAS, LOSS OF APPETITE, PIMPLES, BILES, GENERAL DEBILITY, &c.

The records of medical science, show, as they do with ample testimonials to the value and efficacy of different medicinal agents, scarcely fair in point with the results recorded upon a multitude of living witnesses to the great worth of Sands' Sarsaparilla. The remarkable cures of a great variety of diseases effected by it timely or opportune, furnish undeniable evidence of its efficacy, and the experience of certain years has made it a standard popularity that will not permit even attempts at imitation to injure its well established character. Many of the most eminent physicians of the day throughout the whole country, are using it in their practice, and the whole surface of the land, and sea, have been innundated (if I may so express myself) with the cures from the lowest, the most humble and wasting cases of scrofula, to the slighter forms of disease, in the form of a dull, heavy, sickly feeling, which are very little attended to, but which, if not attended to, will terminate in some dreadful disease. Time and time again have I been told by persons, that they have been cured after all hope had fled, and they were given up by their friends, and even by the physicians, and that they would have suffered to the end of their days, had they not been cured by Sands' Sarsaparilla. My object in saying this is to let those who have suffered as they have, know where to find a remedy. I am not anxious to sell the medicine, but I am anxious to have it used, and to have it used right, and therefore I say to those who have used it, and to those who will use it, write to me, and I will give you advice gratis, and cheerfully.

PERRIER NAZIER, 3d Nassau st.

For a corroboration of these facts upon a large scale, see the Testimonials of Messrs. Bowers & Merchant, Druggists, corner of Ann and Nassau streets, and Messrs. Demas Brothers, Druggists, corner of Ann and Nassau streets, City of New York, and numerous others in the same city, who have sold large quantities of Sands' Sarsaparilla, and can testify to the unparalleled popularity of the article, and to the unbounded confidence of the community in its virtues. Many of the most eminent physicians of the city of New York, have used it in their practice, and have given certificates of its virtues, which can be seen at the office of the subscriber, 273 Pearl street, New York.
